National Interstate and Vanliner are teaming up with loss control industry leaders to host a series of webinars to bring you the latest emerging trends, risk management solutions, and impactful methods to enhance your safety culture.

Register for upcoming webinars below or check out our library of past events to stay up-to-date on the latest in safety solutions.

2/24/26 - FMCSA Update 2025 Round Up and 2026 Preview

February 24, 2026 @ 2:00 PM EST

Presented by: Brandon Wiseman, Trucksafe

In this session learn about the FMCSA regulation updates that went into effect in 2025 and what to look out for in 2026.

4/7/26 - Automating Recruiting & Record Retention

April 7, 2026 @ 2:00 PM EST

Presented by: Scott Rea, Avatar

What would you do with more time? Discover how to streamline your operations and maximize efficiency while managing a small, multi-tasking team. You will learn essential strategies to automate routine tasks using AI, allowing you to focus more on people and less on mundane processes and the benefits of how integrating your recruiting, compliance, and training systems into one cohesive platform can save you both time and money.

5/20/26 - Maximizing the ROI of Dash Camera Systems

May 20, 2026 @ 2:00 PM EST

Presented by: Bobbi Farrow, Netradyne

Fast-track the development of a positive fleet safety culture with cutting-edge technology. Improve driver performance and satisfaction without adding staff. Learn how gamifying driver safety can encourage drivers to improve and maintain good driving habits while simultaneously reducing the need for managers to coach drivers face-to-face.

6/23/26 - Overcoming Lag Time In Claims Reporting

June 23, 2026 @ 2:00 PM EST

Presented by: Tony Altobelli & Jeremy Blakeslee, National Interstate

Note: this session is exclusively for National Interstate & Vanliner Insureds

Explore the crucial impact of lag time in claims. Understand how fear and poor communication contributes to delays and learn effective strategies to minimize lag time through education, proper procedures, and proactive management. Join us to uncover the keys to reducing costs, expediting claims, and our strategy to achieve the best outcome for our customers.

Keep an eye on your email for the invite to this exclusive webinar!

8/26/26 - Finding Facts, Not Fault In Claims

August 26, 2026 @ 2:00 PM EST

Presented by: Nic Coia, Coia Safety & Consultative Services

Most organizations stop at “who messed up.” This presentation flips that mindset, focusing on all five causal factors: Human, Management, Task, Material, and Environment. Nic teaches how to move beyond blame and build a culture of trust, accountability, and continuous improvement.

11/11/26 - Effective Driver Training

November 11, 2026 @ 2:00 PM EST

Presented by: Rich Schwartz & Chris Steinbauer, National Interstate

Having a strategic and well-structured training program is a key for any business's success. This includes everything from onboarding to continuing education. In this session we will review different types of training, how to improve engagement and retention, and opportunities to ensure your training is making an impact. This includes the transformation of modern-day training with online and app-based platforms to help support an efficient and effective training program. This session will help you see how you can improve your training program and courses to get the most out of investing in employee development and help your organization reduce losses, increase productivity, and prioritize safety.
